FILM SOLUTIONS FOR EVERY APPLICATION

PRODUCT PORTFOLIO

	IKO LABEL IML	IKO LABEL WRAP-AROUND FILMS	IKO FACE FACESTOCK FILMS	IKO PACK COEX	IKO PLAIN PLAIN FILMS
TRANSPARENT	CLI, CMI	CWR	CPS	CLA2, CLH, CLHL CLM	CLP1, CLP2, CLR
MATT	CMI			CMH, CMR,	CMP2
SOLID WHITE	OPI, OMI		WPS	WLH, WLL	
WHITE VOIDED	SWI, SSI, SFI	OWR, OWRL	OPS	OPH, OPL, OPA, OPD	
METALLIZED	CMI-M	OWR-M, CWR-M		CLH-M, WLH-M	

FILM SOLUTIONS FOR EVERY APPLICATION

Engineered BOPP film solutions for labeling, packaging and industrial applications.

IKO LABEL

- In-mold label, wrap-around label and related variants

IKO FACE

- Pressure-sensitive label facestock films

IKO PACK

- In-mold label, wrap-around label and related variants

IKO PLAIN

- Plain base films and release plain variants

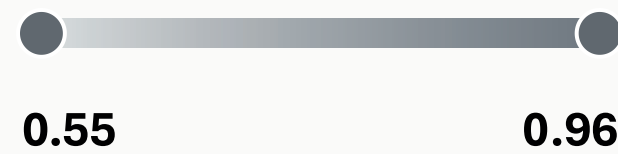

In-Mould Labelling (IML) Films

THICKNESS RANGE

DENSITY RANGE

Developed for high-performance in-mould labeling applications, POLIKON IML Films combine excellent printability, stiffness and dimensional stability with reliable processing performance. They provide strong visual impact and consistent label quality for rigid packaging applications requiring durability, efficiency and premium shelf appearance.

IKO LABEL

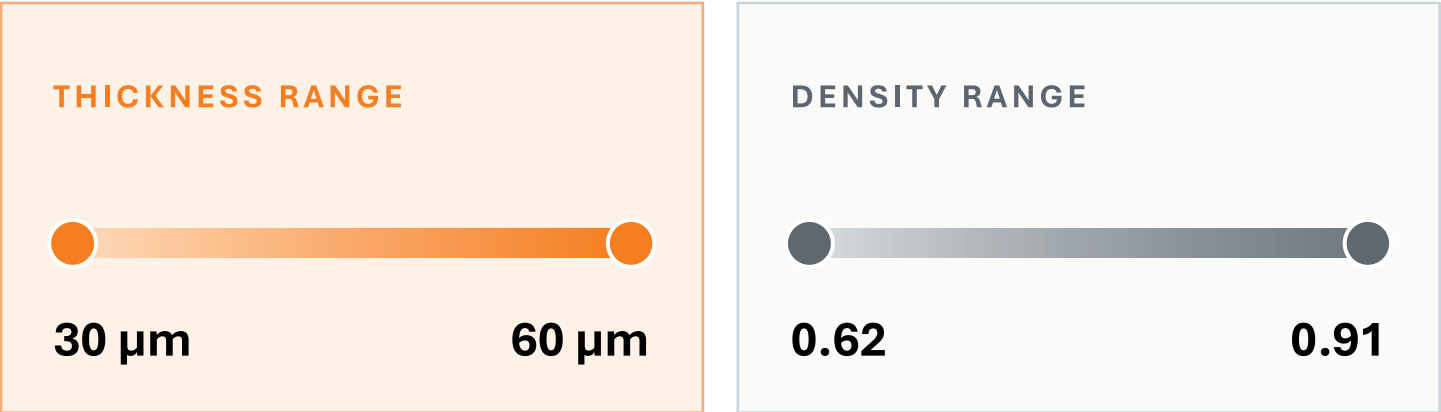

CORE IML PRODUCT RANGE

CODE	APPEARANCE	THICKNESS	DENSITY
CLI	TRANSPARENT	50 µm	0,91
CMI	TRANSPARENT MATT	50 µm	0,91
SWI	SOLID WHITE	45/57 µm	0,91
SSI	SEMI SOLID WHITE	60/70 µm	0,91
SFI	SATIN FINISH	60/65 µm	0,91
OPI	WHITE CAVITATED	55/60/65 µm	0,91
OMI	MATT WHITE CAVITATED	50 µm	0,91

Wrap - Around Label Film

Engineered for high-speed wrap-around labeling applications, POLIKON films combine excellent clarity, gloss and dimensional stability with reliable machinability. Their smooth surface supports high-quality printing and strong visual impact, making them an efficient solution for beverage, water and other container labeling applications.

IKO LABEL

WRAP-AROUND & METALLIZED LABEL

CODE	APPEARANCE	THICKNESS	DENSITY
CWR	TRANSPARENT WAL	30/35/40 µm	0,91
OWR	PEARLIZED WAL	35/38 µm	0,70
OWRL	PEARLIZED WAL HIGH YIELD	35/38 µm	0,62
CMI - M	METALLIZED TRANSPARENT IML		0,90
OWR - M	METALLIZED PEARIZED WAL		0,70
CWR - M	METALLIZED TRANSPARENTWAL		0,91

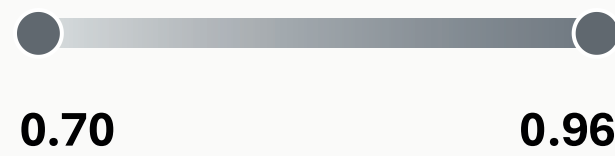

Pressure - Sensitive Label Facestock Films

THICKNESS RANGE

DENSITY RANGE

Engineered for pressure-sensitive labeling applications, POLIKON IKO FACE films deliver excellent surface quality, printability and converting performance. Their consistent optical properties and dimensional stability support a premium label appearance across personal care, household and other branded packaging applications.

IKO FACE

FACESTOCK PRODUCT RANGE

CODE	APPEARANCE	THICKNESS	DENSITY
CPS	CLEAR FACESTOCK	30/40 µm	0,91
WPS	WHITE FACESTOCK	40/48/57 µm	0,96
OPS	HIGH YIELD PEARLIZED FACESTOCK	50/56/60 µm	0,70

Flexible Packaging Films

THICKNESS RANGE

20 µm

40 µm

DENSITY RANGE

0.70

0.94

Developed for flexible packaging applications, POLIKON IKO PACK films combine strong optical performance, excellent printability and reliable machinability. Their balanced mechanical properties support efficient converting and high-quality graphics for snacks, confectionery, coffee and other consumer packaging applications.

IKO PACK

FRESH & TRANSPARENT FILMS

CODE	APPEARANCE	THICKNESS	DENSITY
CLA2	FRESH PACK	25/30 µm	0,91
CLH	TRANSPARENT	15/17/20/25/30/40 µm	0,91
CLHL	TRANSPARENT LOW SIT		0,91
CLM	TRANSPARENT MODIFIED PACK		0,91
WLH	SOLID WHITE	20/25/30 µm	0,91
WLL	SOLID WHITE LAMINATION		0,94
OPH	VHITE CAVITATED COEX	30/35/40 µm	0,70

IKO PACK

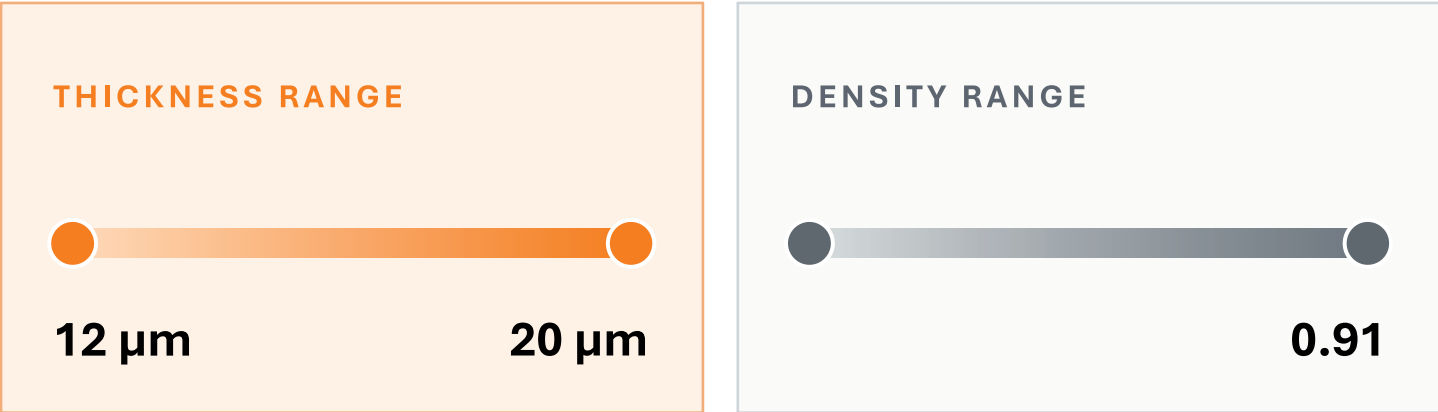

MATTE & METALLIZED FILMS

CODE	APPEARANCE	THICKNESS	DENSITY
CMH	MATTE COEX	20 µm	0,88
CMR	MATTE RELEASE FILM	20 µm	0,88
CLH - M	METALLIZED TRANSPARENT	20 µm	0,91

Base Films

Designed as versatile base films for converting and industrial applications, POLIKON IKO PLAIN films offer consistent thickness, dimensional stability and dependable processing performance. Available in clear, white and pearalized variants, they provide a reliable foundation for printing, lamination and specialized downstream applications.

IKO PLAIN

PLAIN FILMS

CODE	APPEARANCE	THICKNESS	DENSITY
CLP1	TRANSPARENT PLAIN ONE SIDE TREATED	15/18/20 µm	0,91
CLP2	TRANSPARENT PLAIN - DOUBLE SIDE TREATED	12/15/18 µm	0,91
CLR	RELEASE PLAIN	15*20 µm	0,91
CMP2	MAT PLAIN
